21st EDUCATIO International Education Expo – online edition

EDUCATIO International Education Expo is the most significant and prestigious annual professional event for education in Hungary organised every year since 2000. Hungarian secondary and higher education, educational equipment production, schoolbook publishing, professional education, language teaching, as well as quality assurance are represented by hundreds of exhibitors including almost every Hungarian university and college. In addition to the exhibition pavilions, **visitors have the chance to become acquainted with the present and future of Hungarian education at professional lectures and presentations.**

The aim of online Educatio is to provide our partners with a safe opportunity to build direct contact with Hungarian young people who are open to the world and new things, despite the difficulties caused by COVID-19.

Organising 21st EDUCATIO Expo we aim to provide an opportunity for **even more Hungarian and foreign exhibitors** to introduce themselves. All public and higher education institutions, organisations and companies that are related to any fields of education are welcome, including foreign educational institutions and companies. We make every effort to create a 'virtual marketplace' on the fair as well: we aim to boost the participation of educational decision-makers through organizing conferences, professional programs.

When setting up the requirements for participating on the exhibition, we were aiming to create a surface which makes the process of reaching out to those interested in higher education services cost efficient for all parties.

The next EDUCATIO Expo will be organized again by the Conference of Student Councils (HÖÖK), by the consent of the event's rightholder, the Hungarian Educational Authority. This helps us to reach our main target group, the students even more successfully, while holding the fair's quality on the highest level which our exhibitors have already accustomed. Our vision for the upcoming years is to become the most significant educational event of the Central-European region.

EDUCATIO 2021

The **21st EDUCATIO Expo** is organised **between 21-23 January 2021**. On the basis of the success of previous years **we expect close to 200 exhibitors and 55,000 visitors** — secondary school students, their parents, teachers and institution leaders — **during the three days** of the exhibition.

Exhibition topics

In order to enhance the arrangement of the virtual Expo the exhibitors are organized in groups on the basis of their activities. We make efforts to place exhibitors with similar activities into the same section. Based on the experience of previous years apart from the higher education institutions, we determined other sections connected to education sectors, which you can choose from on our online ordering platforms depending on the activities of your institution. These exhibition topics will appear partly or completely in the digital Expo Catalogue, as well as on the official website. The Organizer reserve the right to reclassify the Exhibitors, in case they chose more than one category.
